

147A.023 Legislative findings -- Governor's Office for Local Development to encourage growth of broadband and information technology in state.

- (1) The General Assembly finds that the work of ConnectKentucky in the deployment and adoption of broadband services and information technology across the state has resulted in enhanced economic development and public safety for Kentucky communities, improved health care and educational opportunities, and a better quality of life for Kentucky citizens. Further, continued progress in the deployment and adoption of broadband services is vital to ensuring that Kentucky remains competitive and continues to create business and job growth. The General Assembly finds that Kentucky must encourage and support the partnership of the public and private sectors in the continued growth of telecommunications and information technology for Kentucky citizens and businesses.
- (2) The Governor's Office for Local Development shall:
 - (a) Track the deployment and adoption of broadband and information technology in Kentucky;
 - (b) Enable public-private partnerships among broadband providers and relevant government entities to encourage the deployment and adoption of advanced broadband services;
 - (c) Serve as a resource for all citizens, broadband providers, and technology businesses regarding broadband and information technology issues;
 - (d) Report progress on deployment and adoption to the Legislative Research Commission upon request and at least annually; and
 - (e) Ensure notification to the public of the availability of public funds for broadband and information technology investments prior to awarding any contracts or grants.
- (3) The Governor's Office for Local Development may contract with a nonprofit organization to accomplish the objectives set forth in this section. The organization shall have an established competency in working with public and private sectors to accomplish wide-scale deployment and adoption of broadband and information technology.
- (4) Nothing herein shall be construed as giving the Governor's Office for Local Development any authority, regulatory or otherwise, over providers of telecommunications and information technology.

Effective: June 26, 2007

History: Created 2007 Ky. Acts ch. 37, sec. 1, effective June 26, 2007.

Legislative Research Commission Note (6/26/2007). 2007 Ky. Acts ch. 47, sec. 96, instructs the Reviser of Statutes to correct statutory references to agencies and officers whose names have been changed in the Act, as it confirms the establishment of the Governor's Office for Local Development under Executive Order 2006-678. Such a correction has been made in this section.
